**CC:** Scarano, Louis [Scarano.Louis@epa.gov]; Blair, Susanna [Blair.Susanna@epa.gov]  
**Subject:** FYI: Incoming Correspondence from SAB on NAMs  
**Attachments:** EPA-SAB-20-011.pdf

Tala - OCSPP IO asked that I share the attached letter with you and OPPT staff involved in NAMs work.

As Melissa notes below, this is an unsigned letter from the SAB Committee Chair to the Administrator that came to OCSPP through CMS. It looks like it is on the new approach methods and reducing the use of laboratory animals for chronic and carcinogenicity testing. OPP is on the hook to handle the response - but as we work within OCSPP jointly on NAMS issues they thought it prudent to share with us for awareness.

Best,  
Alison

**Subject:** FW: CMS New Assignment - Wanda Bright - SAB-20-000-6822

Anna and Rick,

Attached is an unsigned letter from the SAB Committee Chair to the Administrator that came to us through CMS. It came with instructions to send to you both. It looks like it is on the new approach methods and reducing the use of laboratory animals for chronic and carcinogenicity testing. We are hoping that you know why it was sent, what the next steps are, and what the ask is here or what they are expecting in response. If you are not sure about the ask, please reach out to the point of contact (POC) Tom Armitage:

POC: Tom Armitage/SAB 202-564-2155

Thanks,  
Melissa
